

Digital Tachometer

Description

A digital tachometer that will provide rpm measurement of revolving objects, shafts of motors etc and meter per minute (m/min) surface speed measurements by non contact optical method using reflective tape or by physical contact. It is easy to use and measurements are clearly displayed on an LCD screen. Ideal product for electrical, water supply and automotive environments.

Specification

Measurement	10 to 99,999 RPM
Range Selection	10 to 99 RPM, 100 to 999 RPM, 1000 to 9999 RPM, 10000 to 99999 RPM
Best Accuracy	0.04% \pm 2dgt
Display	99999 counts
Target Distance	50mm to 200mm
Start/Hold	Start and Stop Measurement, Data Hold
Max/Min/Ave/Zero	Max. value, Min. value, Ave. Value, Zeroing
Sleep Mode	Around 15 minutes
Low Battery Display	✓

General Characteristics

Power Source	1.5V Battery (AA) x 4
LCD Size	53x41 mm
Size	184x56x34 mm
Weight	100 g

Item Code : ST-NCOT EAN : 8904048100512

Product Supply Includes : Tachometer Unit, Batteries, User Manual, Reflecting Tape.
