

5 BEAM LASER POINTER

Auto Leveling 5 Beam Level Plumb & Square Laser Pointer

Description :

Five square (90°) spot laser provides simultaneous level, plumb and square reference points facilitating alignment work to be performed in all directions. All beams originate from the same source guaranteeing superior accuracy & repeatability. Additionally, the housing can be turned to enable horizontal leveling, while the two perpendicular lasers allow marking to be easily transferred from floor to ceiling.

Features :

- **Automatic Leveling:** The automatic leveling mechanism eliminates set up time, guarantees accuracy and repeatable transfer of points to multiple locations.
- **Automatic Out of Level Sensing:** The visual (blinking laser beam) out of level indication signals if the unit is out of level after initial set up. This eliminates tool status checks and costly errors saving time and money.
- **Always on the Job:** Unlike other laser products, users can easily recalibrate the tool keeping it on the job. Simply follow the instructions in the manual and with a few twists of a flat head screwdriver the tool is ready to go.
- **Multipurpose Attachment Accessory:** Attachment accessory with strong magnets, tripod mounts and straps allow for attachment of the tool to a variety of different surfaces including metal studs, wooden beams and tripods
- **Field Recalibration:** Easy field recalibration guarantees performance to specification and keeps the tool on the jobsite, saving time and money.

Specifications :

Operating principle	Laser, pendulum, prism
Operating Range	Upto 100m
Accuracy	2mm/10 m
Self Leveling Range	side-side ~ +/-4° & forward-backward~ +/- 6°
Laser Source	Class II, 635 nm diode
Out of level Indication	Blinking Laser Beam
Power Supply	3 X 1.5V AA Batteries
Size (in mm)	105 X 40 X 120
Weight (in g)	400
Operating Temperature	-10°C to +50°C
Environmental	IP54 dust & water resistant
Recalibration	On the jobsite
Tripod Mount	1/4"
Options	(can be used without tripod; tripod not included)

Application Illustrations

Square (foundations)

Plumb (concrete)

Square (Carpentry)

Level transfer

**AUTOMATIC
LEVEL**

Item Code : ST- MBL5 **EAN :** 8904048100116

Product Supply Includes: MBL5 Unit, Magnetic base, Laser Enhancement Glasses, Laser target plate, Carry Case & 3 X "AA" Batteries.
