

BREEZE CABLE BLOWING MACHINE - CBS UK

Installation Of Micro Cables

Description :

The "BREEZE" Cable Blowing Machine has been designed to meet the growing need for the installation of micro cables. Small and portable with ergonomic controls, it is ideally suited for external or internal use. The compliant double driven cable rollers provide secure grip whilst safely handling the cable. The pushing force can be set to match the cable stiffness, and the speed control is fully adjustable between zero and maximum. Recent improvements to the machine implement a high/low torque switch giving greater sensitivity when adjusting low-end torque. This allow the installation of a greater range of cables down to 1mm in diameter.

The machine is retained in a light weight, robust aluminium housing and supplied completed with working/carrying case and "J" Mac air coupling.

A full range of accessories is available to handle the cable and tube range.

Specifications :

Cable Diamter	1 to 8mm
Tube Size (Outside Dia) :	5.0 to 16mm
Cable Speed (Adjustable) :	0-62m/min
Maximum Air Pressure	15 Bar
Power Requirement	220/110 Volt
	AC 50/60 Hz
Supplied as 110V AC 50/60 Hz (standard)	
For 220/240 AC 50Hz	
Transformer C-TRANS-CM-7501 required	

Item Code : ST-BCBM
