

MARKER MATE™ | ELECTRONIC MARKER LOCATOR

For Locating Industry Standard Frequency Electronic Markers

Description :

Marker-Mate™ is designed to locate buried electronic markers, including the patented Tempo Omni Marker®, and Uni Marker®. In fact, Marker-Mate™ sets an industry standard with the **capability of detecting seven electronic marker types simultaneously (power, water, sanitary, telephone, gas, cable TV, non-potable water).**

Marker-Mate™ is user selectable for any of the marker types, or the **Scan mode** will locate all marker types simultaneously and automatically determine which type is detected. Marker-Mate™ scan mode and its pinpoint accuracy reduces time spent **locating buried utilities** marked by Omni Markers®, and Uni Markers®. The Marker-Mate™ advanced pinpoint feature allows the user to adjust its detection threshold, making it possible to narrow the detection area to a precise location. Utilizing digital signal processor technology, the Marker-Mate™ is the most sophisticated and highest performing locator available.

At the same time, the Marker-Mate™ was built to operate in **all weather conditions.** Tempo's Marker-Mate™, Omni Marker®, and Uni Marker® . . . a complete solution.
