

Fiber Cleaver

CLV-N2

Stanlay CLV-N2 is a high-efficiency **auto-return fiber cleaver** designed for fast and repetitive fiber cleaving during **fiber optic and FTTH installation and maintenance**. Equipped with an **auto-return mechanism, integrated fiber dustbin, and FTTH fiber holder**, the CLV-N2 enables technicians to perform continuous cleaving efficiently while keeping fiber scraps safely collected.

The cleaver features a **24-position blade with a blade life of up to 48,000 cleaves**, providing long-term operation while maintaining consistent cleaving performance. It supports **125 μm bare fiber and 250 μm / 900 μm coated fiber**, with an adjustable cutting length of **5–20 mm**, making it suitable for bare fiber and indoor cable applications.

Specifications:

Model	CLV-N2
Bare Fiber Diameter	125 μm
Coating Fiber Diameter	250 μm , 900 μm
Cutting Length	5~20mm
Blade Life	48000
Auto Return	Yes
Fiber Dustbin	Yes
Size	60mm*60mm*100mm
Weight	370g
